The *Dancing Pavilion*- the family oriented ride with a very special magic. It will inevitably raise pleasing images of "the good old times", perhaps of dainty women wearing long lacy dresses carrying parasols, being accompanied by cavaliers with a boater and twirling a cane, strolling along with music floating through the air. This ride will let its riders forget all problems for just a little while, dreaming of "the good old times" as they imagine it.
A beautiful version of the attraction can be seen at "Holiday Park" in Haßloch, Germany
